# Report of School Superintendent

---

NEWFANE, VT., November 22, 1906.

*To the Voters of the Town of Newfane.*

During the first two terms of the past school year there were seven schools maintained in the town. Teachers were as follows:—

## *First Term.*

Union school, district No. 4, Miss Alcestis Wheeler.

Newfane Village, Miss Sadie Davidson.

Riverside school, district No. 3, Mr. Micott.

Williamsville Village, Mr. Floyd Putnam.

Parish school, Miss Nellie Dickinson.

South Newfane Village, Mrs. Abbie Adams.

Brookside school, Miss Martha Vane.

The same teachers were retained for the second term with the exception of Mr. Micott, who was obliged to give up the school on account of illness. His place was taken by Miss Ida Maher, who took examinations and obtained a permit. Examinations were given to Aaron White and Harry Whitaker, to find whether or not they were fitted for higher schools. They both passed with high per cent. The former went to Goddard Seminary, the latter to Townshend Academy.

At the beginning of the year eight new primary pupils entered the Williamsville school. They were provided with Cyr's Primers, and have made rapid progress. At the end

of the second term, most of them were excellent little readers. They also did good work in spelling and number work. This class was an exceedingly interesting one for visitors.

In the South Newfane school there were two beginners, under five years of age, who did unusually well. At first it seemed as though they would learn nothing, but after a little they progressed rapidly. There were a few beginners in nearly all of the schools, but not large classes. Most of the schools are well graded now. This was difficult in some cases, especially in the Union school, district No. 4, where there were several classes of one, the pupils seemed to be studying in entirely different parts of their books, making it hard to classify them.

Drawing was taught by nearly all of the teachers with good success. Music was taken up by some. The pupils enjoyed this immensely; they not only learned to sing, but to read music. I wish music could be taught in all of the schools. A day started with a little singing gives the children a happy feeling which lasts for some time.

An advanced class, or so-called high school, was begun in Williamsville at the beginning of the fall term. Mr. Putnam volunteered his services for an hour and a half or two hours after the close of school at night, to instruct those pupils, who had finished the common school studies and passed excellent examinations, in more advanced work. This class took practically a first year high school course—algebra, arithmetic, rhetoric, general histories, spelling, and dictation. The pupils kept along quite evenly with those who went to higher schools. They were much interested and worked hard.

Eight Emerson's rhetoric books and eight Meyer's new general histories were supplied the above class. Mr. Putnam is deserving of great credit. His labors have been hard and long, but his success is quite evident.

There was a deficiency of the elementary geographies in many of the schools, which was a great inconvenience, and these were supplied.

There were several old, worn-out books collected and sent to Ginn & Co. in exchange for new ones.

The discipline has been good this year in most instances. The teachers have striven to interest their pupils and to teach concentration of thought, which is very necessary.

The Riverside schoolhouse in district No. 3 has been painted inside, making it look very neat and clean. A new door has been furnished for this building, also. Other small repairs have been made in the other schools.

Respectfully submitted,

MRS. J. E. MORSE.

*To the Voters of the Town of Newfane.*

Report for the unexpired term, caused by the resignation of Mrs. Morse, as superintendent, is herewith submitted:—

*Schools.* Seven schools have been maintained, each with a winter term of ten weeks. The high school class, taught by Mr. Putnam, has been continued in No. 6, with seven members, one coming from the Parish. This high school training at home should be appreciated by pupils, parents, and all citizens.

*Teachers.* Three changes have been made, Miss Lottie Hunt teaching in No. 1, Fred E. Gilbert in No. 2, and Mrs. Edith J. Farnum in No. 3. All have done good work. The other teachers have been employed from one to three years each. This aim of the directors to secure successful teachers who will remain gives continuity of work not otherwise possible to the pupils.

*Pupils.* A commendable degree of interest and industry

has been manifested by a large majority of pupils. They want to learn and to do the things that pupils elsewhere learn and do. This spirit should be encouraged heartily. When it is lacking, pupils fall below their grade.

*Attendance.* Increasing care is given to regularity of attendance. (See table.) Ten years ago the superintendent reported, "One of the greatest obstacles to improvement that we have met with has been the lack of regular attendance." A page was devoted to this subject. To-day few absences occur without cause. A perfect record for a term or a year means much to the pupil. The training in punctuality is invaluable. Four pupils in No. 6 have perfect records three years.

TABLE OF ATTENDANCE, WINTER TERM TO JANUARY 31.

Districts,	1	2	3	4	5	6	8	Total.
Whole number of pupils,	15	22	10	15	11	35	18	126
Number not tardy,	12	19	7	4	5	34	17	98
Number not absent,	8	8	1	5	7	14	9	52
Number with perfect attendance,	8	7	1	1	4	13	8	42
Others lacking 2 days or less,	3	6	7	5	3	11	4	39

During the year: Whole number pupils in schools, 165; not tardy, 106; perfect record, 20; lacking two days or less, 35.

*Text Books* in use, with few exceptions, are satisfactory. The inevitable wear and tear render many books unfit for use each year. Many are so now. These have to be replaced, especially all sets of supplementary primary readers. If pupils are to read with good expression, several sets of readers of each grade are necessary during the first three or four years.

*Parents* (including the fathers as well as the mothers) are earnestly desired to visit the schools. Learn at what hour classes recite that you wish to hear. Go at that hour. Pu-

pils recite better and feel more at ease if accustomed to visitors. Teachers will be encouraged by your presence.

*School Laws.* Attention should be called to new school laws. They provide for closing small schools and transporting pupils to larger ones; for towns to unite to employ a superintendent whose salary shall be paid in part by the state and for pupils who expect high school or academy tuition to be paid by the town, to pass examinations, showing fitness for the work. Large sums of money have been appropriated by the state with a twofold purpose—to equalize taxation for schools, and to provide equal school advantages throughout the state. If we would benefit by these laws we must know them.

*Educational Meeting.* A teachers' institute of broad scope, arranged by State Superintendent Mason S. Stone and County Examiner H. D. Ryder, was held in Newfane January 24. Other towns represented were: Brookline, Dover, Dummerston, Brattleboro, and Wardsboro. Mr. Ryder presided, giving many helpful thoughts before and between the addresses. Local speakers were Mr. Gilbert and the superintendent. From Brattleboro, Mrs. Horton spoke upon nature study; Miss Tucker, supervisor, upon management, literature and reading, and the joy the pupil should have in his work; Miss Wellman, with two boys to illustrate, gave a physical culture drill and emphasized attention to health. Mr. Stone talked informally with teachers upon important school items, advocated an elementary course in agriculture in our schools, and explained points of the new laws to directors. He was followed by Colonel Fletcher of Cavendish. Editor F. L. Greene, of St. Albans, in the evening gave for the general public a witty and entertaining lecture, presenting many problems which confront the "New Vermont."

*Recommendations.* First, that hitching posts be placed in

the school grounds as recommended last year by Superintendent Bruce and so located as to be easily accessible in winter.

Second, that a few well selected maps be provided. They are much needed. Maps of good quality last many years.

Third, that the superintendent be authorized to issue in pamphlet or card form a list of all books and supplies owned or furnished by the town, with such suggestions as seem needful. The expense would be nominal. The list would save much time to teachers and classes, showing the teacher at a glance what books are available for new classes and for reference.

*In Conclusion.* With active young business men, who take an interest, for directors, with earnest teachers and studious pupils, the outlook is encouraging for good work the coming year.

Respectfully submitted,

GEORGIE M. LOVE.

## List of Marriages, Births and Deaths in Newfane, 1906

---

### MARRIAGES.

- Apr. 11. Walter A. Wade and Bessie M. Gould.  
July 31. Silas N. Kenny and Delia M. Tuthill.  
Dec. 3. William Nido and Cola L. Edwards.  
Dec. 5. Chas. R. Freyenhagen and Mabelle A. Morse.  
Dec. 18. Lewis H. Higgins and Ida I. Maher.

### BIRTHS.

- Jan. 3. Daughter, Samuel and Ethel Wiswall.  
Jan. 9. Daughter, Joseph and Albertine Cummings.  
Jan. 23. Son, John and Fanny Williams.  
Feb. 25. Son, John and Frances Baker.  
Mar. 1. Son, Louis T. and Lillian Capen.  
Apr. 10. Daughter, George and Etta Batchelder.  
Apr. 30. Son, Prentiss H. and Lizzie L. Carr.  
May 9. Son, Herbert E. and Edith Packard.  
Aug. 6. Daughter, Burton E. and Ida May Putnam.  
Sept. 10. Daughter, Claud C. and Bertha M. Read.  
Dec. 24. Son, Miles G. and Alice Tupper.  
Dec. 27. Daughter, Frank and Rua Rowe.  
Dec. 28. Son, Earl F. and Lizzie B. Davis.

# Report of School Superintendent

---

*To the Voters of the Town of Newfane:—*

School reports necessarily present more or less sameness from year to year; yet each year brings new work, new plans, new problems which, in a measure, relieve monotony.

*Schools.* Seven schools were in session during the spring term and six during the fall and winter. All terms have been of ten weeks each except the spring term in South Newfane, which was shortened to about eight weeks on account of an epidemic of measles.

School No. 3 was closed after the first term. Several pupils moved away leaving too small a number to insure a legal school which requires an average attendance of five. Of the pupils remaining, a part went to Brookline in the fall, the others to Newfane. In the winter all went to Newfane. Those who had moved away reported their return just at the beginning of the winter term and attended the Williamsville school. This arrangement has had good results.

For reasons above stated, and by pupils moving into the districts, the Williamsville and Newfane schools have been unusually large—40 pupils at the former and 33 at the latter this winter. Fortunately the attainments of the pupils are such that the schools are remarkably well graded. Especially is this the case at Williamsville, where there are practically only three grades. The teachers in these schools are doing excellent work and a great deal of it.

*Teachers.* Four teachers of experience have been re-

tained in the same schools as at the close of last year, namely:—

Miss Lottie Hunt, No. 1, Brookside.

Mrs. Abbie Adams, No. 8, South Newfane.

Fred E. Gilbert, No. 2, Newfane.

Floyd D. Putnam No. 6, Williamsville.

In No. 3, Riverside, Mrs. Agnes Walcott of Jamaica taught the one term.

In No. 4, Union, Miss Alcestis Wheeler the spring term. Mrs. Edith J. Farnum the fall and winter terms.

In No. 5, Parish, Miss Nellie Dickinson the spring term; Miss Beulah Timson the fall and winter terms.

Of the two new teachers, Miss Timson is a recent graduate of Leland & Gray Seminary and is taking up her school work in earnest. Mrs. Farnum has had successful experience in this and other towns. Her constant enthusiasm awakens much interest among her pupils.

No permits have been issued, all the teachers being regularly certificated.

*Pupils and Examinations.* Eleven pupils have been examined upon dates fixed (June 27-28 and August 29-30), and questions furnished by State Superintendent Mason S. Stone. These examinations have been uniform throughout the state in towns not maintaining high schools. Seven pupils passed the required per cent and have received from County Examiner H. D. Ryder certificates for advanced tuition.

The new law requiring these examinations is seemingly of greater benefit to our schools than any other law passed in recent years. It at once establishes a grade, or standard of scholarship. Numbers of pupils are quick to see the need of more careful work along all lines, and teachers feel the necessity of requiring it. Passing this examination with credit is equivalent to graduation from the grammar school.

Many pupils, whether planning to take high school training or not, will aim to complete this course of study before leaving off attendance upon the district or town schools.

The law is also a benefit to the towns. They are no longer required to pay advanced tuition for pupils while doing preparatory work nor until qualified for high school studies.

Parents and guardians should notify the town superintendent of schools early in April of all students desiring to take the June examinations. Several have given notice already. Teachers who grasp the situation are interested in having their pupils thoroughly fitted for the regular high school course.

Pupils awarded tuition certificates and names of schools are given below.

Name.	Residence.	School Entered.
Miss Alice Temple,	Williamsville.	
Miss Marion Sherman,	Williamsville,	Goddard Seminary
Miss Stella Morse,	Williamsville,	Leland & Gray
Miss Nellie Hamlin,	Newfane,	Leland & Gray
Miss Lizzie Flynn,	So. Newfane,	Leland & Gray
Miss Ethel Powers,	Brookside,	
Charles Lowe,	Newfane,	Leland & Gray

*Teachers' Meeting.* An informal teachers' meeting was held Friday afternoon, September 13, at the home of the Superintendent. Such a meeting at the beginning of each term would be profitable and would tend to unify the schools. The new "Teachers' Manual," issued by Superintendent Stone was discussed. Reading and writing were studies selected for special attention, also exercise in expression, both written and oral. It is pleasing to note marked improvement made by individual pupils and by some of the classes.

*Text Books.* Few of the worn-out text books reported

last year have been exchanged. The demand has been along other lines mainly. Only such books as were needed for immediate use in classes have been purchased. New spellers, better adapted to our grade of work, have replaced part of the old ones and have supplied some classes. They are much liked and other useless spellers should be exchanged for the same "Word List."

Sets of arithmetics which furnish much rapid drill practice have been tried in two classes with encouraging results. In exchanging our worn-out arithmetics, such a book should be provided. It costs no more than one lacking in material for this rapid practice work.

*Maps, Globes, etc.* A set of substantial maps has been supplied to pass around to schools when called for. These, with the outline maps, (which latter are not generally appreciated) furnish an ample supply and should last for years by adding, from time to time, a world and a United States map. It is good to find teachers using maps and globes, not only in geography class but in history, reading, language or wherever places, peoples, or products are named.

Newfane furnishes good text books and materials. The teachers aim to make the best possible use of them.

*The Eye and Ear Test* which is made annually in September for all pupils over 7 years of age showed the following results:—

Number of pupils examined,	86
Number of pupils found defective,	26
Per cent of defectives,	30

Of the boys 25 per cent had defective eyes.  
 Of the girls 35 per cent had defective eyes.  
 Only one case of defective hearing was found.

*Attendance.* While the interest in perfect attendance is more general than formerly, there are still cases where pupils

are kept out of school for most trivial reasons. This is not as it should be. Every child is entitled to full attendance at school until fifteen years of age and longer if he desires. Only those who are mentally or physically unable to take the school work are excepted by law from regular attendance. The change of pupils from one school or town to another during a term is also prohibited. It is a great detriment to the pupil and the school. Wherever the term is begun, it is required to be completed.

*Problems.* Many problems are presented to the school directors for consideration during the year. Perhaps it would be well for all to share them

The first and greatest problem, they tell me, is the matter of expense which, in spite of effort to keep it down, insists upon rising to a high figure, even though no repairs except for general wear and tear are made, and no extras purchased. Under the new law, however, approximately \$300 has been paid back by the state, (see treasurer's report) for advanced tuition and transportation money expended. This amount may be deducted from the \$2,715.60 given in summary and totals as school expense to arrive at the exact amount.

The transportation question is a somewhat trying one because it is expensive and because the service provided by the town is not always understood and appreciated. Under the law providing transportation, pupils may assemble at some convenient place to be called for by the school conveyance. Patrons are fortunate indeed, if the route of the conveyance runs past their door, for all parents expect to have a degree of responsibility about sending their children to school.

Then there is the question of vacated school buildings. Are they to be sold, or kept repaired and protected as if belonging to the individual? Neglected buildings soon decrease in value.

The directors have been notified by the board of health that two story buildings with a room above for public meetings are required to be provided with fire escapes. This applies to the Williamsille and Newfane buildings and should not be unreasonably expensive.

*Recommendations.* First. That the Parish schoolroom be made presentable and wholesome by patching the plastering and supplying a coat of paint and kalsomine.

Second. That the fences at No. 1 and No. 3 schools be neatly repaired or removed.

Third. That modern methods of heating and ventilating school rooms, as explained by Dr. H. D. Holton, secretary of the state board of health, in the new "Teachers' Manual," be investigated and put into use where necessary. The stove at Williamsville, years ago condemned, has been repaired and put into service again but should be replaced by another in the near future.

*In Conclusion.* I wish to thank the school directors and teachers for their earnest coöperation and cordial support in the work of school supervision, and to express to patrons and pupils appreciation of every effort to secure regularity of attendance and thoroughness in class work.

Respectfully submitted,

GEORGIE M. LOVE.

## List of Marriages, Births and Deaths in Newfane, 1907

---

### MARRIAGES

- Feb. 20. Floyd J. Fairbanks and Florence A. Merrifield.  
May 8. Henry E. Freyenhagen and Mary E. Wellwood.  
Nov. 12. William C. Walker and Rebecca S. Cottle.

### BIRTHS

- Jan. 2. Daughter, Lyman O. and Onnie Bills.  
Feb. 11. Daughter, Leon F. and Jennie M. Bentley.  
Apr. 16. Son, Leon S. and Jennie B. Powers.  
Apr. 30. Son, Frank A. and Lena DeWitt.  
June 21. Daughter, Guy E. and Fanny Grout.  
June 27. Daughter, Frank W. and Georgianna Rose.  
Aug. 10. Son, Lewis H. and Ida Higgins.  
Aug. 10. Daughter, Hermon A. and Della Howe.  
Aug. 22. Daughter, Albert C. and Clara L. Morse.  
Oct. 1. Son, Herbert W. and Jennie J. Garry.  
Oct. 27. Son, William and Bessie E. Quinn.  
Nov. 21. Son, John W. and Fanny Williams.  
Nov. 28. Son, Herbert E. and Effie L. Brown.

## DEATHS

			Yrs.	Mos.	Days
Jan.	2.	Margarette Bills,			
Jan.	5.	Willard E. Bingham,	67	8	20
Feb.	12.	Infant Bentley, 10 hours.			
Feb.	14.	Jessie M. Bentley,	20	8	28
Feb.	25.	Andrew Anderson, age not known.			
Mar.	2.	Nathan B. Perry,	77	5	5
Mar.	3.	Dana D. Dickinson,	85	8	4
Mar.	13.	Imri Johnson,	81	6	13
Mar.	19.	Will L. Micott,	28	2	12

# Report of School Superintendent

---

## *To the Voters of the Town of Newfane:*

It is often easier to plan than to execute. Hence we are not surprised at the end of the year to find that some of the recommendations made at the beginning have not been put into effect. While some of those things that we hoped for have not been done, others, wholly unforeseen, but equally as important, have been accomplished. And so things "average up" in school work as elsewhere in life.

## SCHOOL PROPERTY.

The interior of School hall, Williamsville, has been neatly painted, making it wholesome and suitable for use as a schoolroom.

The fence around Brookside school grounds has been rebuilt, giving the place a more tidy appearance.

Parish schoolroom still needs fresh paint and kalsomine with some minor repairs about the building.

None of the buildings have been extensively repaired.

The vacant school buildings make silent appeals for better roofs, if nothing more, to fortify them against the elements.

In rooms not provided with convenient ventilation, windows should be furnished with catches so they may be lowered one or two inches, or more if needed. This is important.

## SCHOOLS.

Six schools have been and are being maintained thirty weeks each, during the year, as heretofore. Parish school, closed four weeks, South Newfane and Williamsville, two

weeks (on account of smallpox in the Parish), have reopened and will continue correspondingly later.

Last year the Williamsville school was reported large, 40 pupils. In the spring the number increased to 47. It was arranged for Mr. Manchester to spend one hour a day extra in school, the primary pupils coming and going a half hour earlier in the morning, and the older ones a half hour later afternoons. In September two departments were formed and continued the remainder of the year, Mr. Manchester with the older pupils upstairs where portable desks are provided, and Miss Howe with the primary pupils in the regular schoolroom. The 50 pupils have furnished good classes for both rooms. Much better progress has been made than would have been possible without the division.

#### TEACHERS.

Besides the present force of teachers, others employed during the year were :

- Miss Lottie Hunt, spring and fall, No. 1.
- Mrs. M. Agnes Walcott, spring and fall, No. 4.
- Miss Bertha Manchester, spring and fall, No. 8.
- Miss Beulah Timson, spring, No. 5.
- Mrs. Mae Whitcomb Cole, fall, No. 5.
- Mrs. E. A. Kenyon, one half spring term, No. 2.
- Miss Hortense L. Switzer, one half spring term, No. 2.
- Miss M. Sadie Davidson, part fall term, No. 2.

Of the fifteen teachers employed during the year, three have had elementary courses of study, five partial high school or academy courses, four high school or seminary courses, supplemented by practical teacher training in two cases, three high school or seminary courses followed by normal training.

Few of our teachers attended any beside the local teachers' meeting. Six took no teachers' or educational papers, al-

though we expect the doctor to have his medical journal and the dressmaker her style books, and not depend wholly upon what was learned ten or five years ago. Too few take the trouble to visit model schools (successful graded schools), to observe best methods. This is an inexpensive and very practical way of securing up-to-date ideas. It is good to state that some of our teachers are planning to visit such schools during vacation. The directors would allow some time for visiting, to those who devote some of their own time to the same purpose.

The adoption of a blank form to be filled out by teachers applying for schools hereafter, has been considered somewhat by the directors. This would give teachers an opportunity to state their training and whether prepared to use up-to-date methods at once, or whether they are to be acquired by them while teaching. Excellent work may be done by inexperienced teachers who are qualified by education, and are anxious to learn and apply what is best in teaching and management. We are constantly seeing such things done. It is better to have them understood in the beginning, and due allowance made for these conditions.

#### CERTIFICATION.

Four *permits* have been granted during the year. In two cases the teachers were engaged after examinations were over. In the other two, the omission of November examinations in Brattleboro (on account of smallpox) necessitated permits. All other teachers were regularly certificated. Three taught under life certificates.

#### THE WORK.

With so many changes in teachers, continuity of work has been interfered with to an extent, but we have tried to keep in mind a few important points, such as:

More careful grading.  
 Improved reading.  
 Good spelling lessons.  
 Thorough understanding of subjects gone over.  
 To recite intelligently.  
 To write a clear legible hand.  
 To be accurate in mathematics.  
 To complete the course of elementary studies.  
 To make best possible use of all materials furnished.

It is a matter of interest that Miss Davidson inaugurated in No. 2, and Miss Streeter has continued, the daily practice of politeness among the pupils that cannot but have its influence outside the school room and in after years. A similar plan might be adopted in other schools. The pupils seem to enjoy it much.

#### TEACHERS' MEETINGS.

Two meetings have been held. Both were informal. The first was on the afternoon of May 1, at the home of the Superintendent, and was attended by all the teachers. The last was Friday afternoon, December 11, at the Newfane school-house. All teachers present except one. At the last meeting the directors were represented by F. A. DeWitt. Only practical problems of our own schools were considered. Light refreshments were served after the meetings, in the latter case by Mrs. Davidson at her home.

#### TEXT BOOKS.

About 250 worn-out books were on hand at the close of last year. They have been exchanged for new ones, materially reducing their expense. Some pupils have no respect for books. In such cases parents or guardians should pay for books injured, as provided by our state laws, until

pupils learn to take good care of books furnished. The directors voted to adopt the Smith Arithmetics when new ones were bought. They have given good satisfaction in the grades for which they are used.

### VISITORS.

One hopeful sign in connection with the work is the increased number of visits by patrons and friends. All schools have been favored in this respect, the number varying from eleven to twenty-five in different rooms. Coöperation and visiting by parents will help both teacher and pupils. The lists of visitors include the names of men as well as women. Let the good work go on.

EYE AND EAR TESTS were given with results shown in the table.

TABLE SHOWING RESULTS OF TEST FOR EYE, EAR, AND THROAT TROUBLE.

Schools.	No. of Boys Examined.	No. of Boys Defective.	Per cent of Boys Defective.	No. of Girls Examined.	No. of Girls Defective.	Per cent of Girls Defective.	Total Pupils Examined.	Total No. Pupils Found Defective.	Per cent of Pupils Found Defective.
No. 1. ....	3	1	33 $\frac{1}{3}$	5	0	0	8	1	12 $\frac{1}{2}$
No. 2. ....	14	5	36	14	4	29	28	9	32 +
No. 4. ....	6	4	66 $\frac{2}{3}$	8	8	100	14	12	86—
No. 5. ....	6	1	16 $\frac{2}{3}$	2	0	0	8	1	12 $\frac{1}{2}$
No. 6 A. ....	9	0	0	9	5	55 $\frac{1}{2}$	18	5	28
No. 6 B. ....	11	1	9+	11	4	36+	22	5	23—
No. 8. ....	10	4	40	4	1	25	14	5	36—
Total. ....	59	16	27+	53	22	41 $\frac{1}{2}$	112	38	34—

These examinations are very thorough. Other particulars included are:

Number of pupils found defective in	
Both eyes,	16
Right eye only,	4
Left eye only,	4
Right ear only,	1
Nose only,	2
Throat only,	4
Defective in two or more organs:	
Eyes and ears,	5
Eyes and throat,	1
Eyes, ears and throat,	1 <sup>st</sup>
<hr/>	
Total,	38

The results, as a whole, are much the same as in other towns. No reason is assigned for the great difference noted between Brookside and Parish ( $12\frac{1}{2}$  per cent), and Union (86 per cent). No pupils under 7 years old are examined. Notices of defects are sent to parents or guardians, and should be heeded at once. Headaches, and often backwardness in studies, are remedied by correct treatment and glasses. Frequent attention should be given to the teeth. At least two small children have been kept from school recently by toothache. Decayed teeth sometimes cause trouble with eyes, ears, throat, stomach, besides nearly all cases of facial neuralgia.

#### EXAMINATIONS FOR HIGH SCHOOL TUITION CERTIFICATES

were conducted June 25-26, and August 27-28, as directed by Superintendent Stone. A few pupils took part of the subjects as trial work. The others took all subjects or

completed work already begun. It was a pleasure to your Superintendent to send to H. D. Ryder, our county examiner, such creditable work as was done by most of these pupils.

Tuition certificates were issued by Mr. Ryder to Miss Fray Ballou, Miss Ruth Gray, Miss Belle Timson, Miss Florence Lazelle, Miss Cora Winchester, Miss Bertha Palmer, Leon Stevens, Walter Wright, Joseph Palmer, Guy Radway.

Some other certificates will be awarded upon completion of required work. Five of these pupils are taking advantage of their certificates.

#### EXPENSES AND HIGH SCHOOL COURSE.

When asked if they had a message for this report, the directors replied: "Only this, that in spite of our best efforts to keep them down, the expenses are increasing."

This is caused in part by higher prices for labor and some materials, teachers' wages, etc.

The transportation is a heavy expense, but this, in the main, is paid back by the state to the town.

When increased expenses are considered we must keep in mind that Newfane practically maintains a good high school with a four years' course, that sixteen or more pupils have attended during a part or all of the year, and that they are members of all four classes. Good reports come to us of the work they are doing. Teachers say, "Send us more Newfane pupils like those we now have."

Your Superintendent attended graduation exercises at Leland and Gray Seminary when Miss Maude Radway was graduated with high standing, being second in her class. In the program she was salutatorian.

Leon Stevens won a prize in the oratorical contests. What would be the expense if Newfane furnished equally

as good advantages within the town limits? Could we undertake it?

Much of this tuition comes back to the town from the state. Let us be thankful that we have young people to educate, and pay their tuition cheerfully. This work seems to be far better appreciated by the pupils than the transportation accommodations are by some parents.

Transportation in some cases has been complained of, and its benefits misunderstood.

Mention might be made of special features of each school, of the W. C. T. U. prize essay work, of the many visits (long and short), and much other work done by the Superintendent, all of which cannot be crowded into one brief report. The matter of supervision should be kept well in view, and whenever the interests of the schools will best be met by entering a supervision district, the directors should take up the matter as they deem best.

Thanking teachers and patrons for cordial coöperation and school directors for ever-ready counsel and advice,

This report is

Respectfully submitted,

GEORGIE M. LOVE,

Superintendent of Schools.

*South Newfane, Vt., January 30, 1909.*

## List of Marriages, Births and Deaths in Newfane, 1908

---

### MARRIAGES

- June 24. Herbert C. Sparks, Jr., and Iva A. Mundell.  
July 15. Ira A. Burns and Mary C. Redway.  
Aug. 18. Wells H. Howard and E. Lillian Collier.  
Sept. 16. Frank E. Freyenhagen and Carrie L. Stedman.  
Sept. 29. Erwin C. Sparks and Bertha E. Manchester.  
Nov. 24. Irving W. Williams and Lottie N. Williams.

### BIRTHS

- Jan. 13. Son, Prentiss H. and Lizzie L. Carr.  
Feb. 8. Daughter, Lewis M. and Laura A. Sargent.  
Feb. 16. Daughter, William and Cola Nido.  
Mar. 2. Daughter, George B. and Katherine Bush.  
Apr. 2. Son, Moses and Delle F. Grout.  
Apr. 6. Daughter, Henry E. and Mary E. Freyenhagen  
June 19. Son, Charles E. and Ada Turner.  
June 18. Daughter, Claud and Bertha Reed.  
June 28. Daughter, George E. and Mary B. Buckley.
